#### **TOWN OF**

Town of Payson 303 N. Beeline Highway Payson, Arizona 85541-4306 Town Hall (928) 474-5242 Police Dept. (928) 474-5177 Water Dept. (928) 472-5100 Fax (928) 474-4610

January 10, 2024

To the Honorable Mayor, Members of the Town Council, and the Citizens of the Town of Payson, Arizona:

The Annual Comprehensive Financial Report (ACFR) of the Town of Payson, Arizona (the Town), for the fiscal year ended June 30, 2023, is submitted herewith.

This report is published to provide the Town Council, Town staff, our citizens, our bondholders, and other interested parties, with detailed information concerning the financial condition and activities of the town government. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

HeinfeldMeech, a Certified Public Accounting firm, has issued an unmodified ("clean") opinion on the Town of Payson's financial statements for the fiscal year ended June 30, 2023. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with this letter.

#### **Profile of the Government**

The Town of Payson, Arizona (the Town) incorporated in 1973, is located at the intersection of State Routes 87 and 260, 90 miles north of Phoenix, Arizona. The Town's boundaries enclose 20.5 square miles in northern Gila County and serve a population of 16,516. Surrounded by the Tonto National Forest and the world's largest stand of virgin Ponderosa Pines, Payson is nestled just below Arizona's Mogollon Rim at an elevation of 4,982 feet and enjoys a moderate four-season climate.

State statutes empower the Town to levy a primary real property tax on property within its boundaries and to levy secondary taxes for debt retirement and local improvement districts. Payson has the power by State statute to extend its corporate limits by annexation when deemed appropriate by the Town Council and a majority of the property owners in the potential annexation area.

The Town operates under the council-manager form of government. The Town Council, which has policy-making and legislative authority, consists of a mayor and a six-member council. The Town Council is responsible for, among other things, passing ordinances and resolutions and adopting the Town's annual budget. They also appoint committees and hire the Town Manager and Town Attorney. The Town Manager is responsible for carrying out the policies, ordinances and resolutions of the Town Council, and for overseeing the day-to-day operations of the Town. The Council is elected on a nonpartisan "at large" basis. Council members are elected to four-year staggered terms with three council members elected every two years. The qualified electors of the town directly elect the Mayor for a two-year term.

The Town provides a full range of services, including police, fire, and emergency medical services; planning, zoning, and building code enforcement; the construction and maintenance of streets and other infrastructure; recreational activities and cultural events; an airport, and a library. In addition, the Town operates a municipal water utility that presently serves 8,642 customers.

The Council is required to adopt a tentative budget on or before the third Monday in July. Public hearings are held on the proposed budget, with adoption of the final budget at least seven days before the tax levy is adopted, which must be completed by the third Monday in August. This annual budget serves as the foundation for the Town's financial planning and control. The budget is prepared by fund, function (e.g. public safety), and department (e.g. police). Department heads may transfer resources within a department with approval from the Town Manager. Transfers between funds, however, need approval from the Town Council.

#### Local Economy

In its early years, Payson's economy was based on logging, ranching, and tourism. Over the years, the economy has been shifting to provide housing and services for a growing retirement population relocating to the area for clean air, good climate, and a rural, small-town quality of life. Tourism activity presently dominates the local economy. The Town's elected leadership desires to encourage economic development that will create good jobs but not harm the environment.

#### **Long-Term Planning**

The Town is dedicated to enhancing the quality of life for its citizens, and providing a superior level of service in the most effective and efficient manner while exercising fiscal responsibility.

Payson has been and will continue to be very proactive in encouraging quality community and organizational development. Every three years, the Town Council and the management staff participate in a strategic planning process to update the Corporate Strategic Plan (CSP) to accommodate changes in the needs of the Town's constituency. The CSP operationalizes the Town's mission statement and its General Plan by specifying objectives and strategies for achieving them. Funding is allocated during the subsequent budgeting process.

#### **Relevant Financial Policies**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town operates.

The Town's financial policies set forth the basic framework for the fiscal management of the Town. These include policies for accounting, budgeting, capital improvements, asset management, revenue management, risk management, and fund balance/reserve levels. These policies were developed

with the parameters established by applicable provisions of Arizona Revised Statutes, Title 9 Cities and Towns, and the Town of Payson Code of Ordinances. The policies are to be reviewed on an annual basis and modified to accommodate changing circumstances or conditions.

The Town's accounting records for general governmental activities are maintained on a modified accrual basis, with revenues being recorded when available and measureable, and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the Town's water utility and other proprietary activities are maintained on an accrual basis.

Budgetary control is maintained at the fund level. Unused appropriations lapse at year-end, and must be re-appropriated or absorbed in the next year's operating budget. Appropriations for Capital Improvement Projects do not lapse at year-end, but are valid for the life of the project. Under the Town's budgetary process, outstanding encumbrances are reported as non-spendable fund balances and do not constitute expenditures or liabilities since the commitments will be re-appropriated and honored the subsequent fiscal year.

All agencies of the Town are required to submit requests for appropriation to the Finance Department in the month of March each year. These requests are used to develop a proposed budget. By early June, the Tentative Budget is adopted and a public hearing is held on the Final Budget, which is then adopted by the Council. At least seven days after adoption of the Final Budget, a public hearing is held on the proposed Primary tax rate, where it is then adopted by ordinance. Upon adoption it is certified to the County Treasurer.

#### **Major Initiatives**

Since the pandemic, the Town has seen a significant growth in business and tourism. Based on this continued growth, in fiscal year 2022-23, the Town focused on the following initiatives:

- Initiated Updates to the Towns Drainage Master Plan
- Construction and installation of two additional granular activated carbon vessels to treat constituents of concern (COC's) and/or contaminants coming from surface water sources.
- Design Splash Pad facility at Green Valley Park
- Initiate the 2024 General Plan Update
- Design improvement to the Granite Dells Roadway
- Begin updating the Airport Master Plan
- Installed security camera systems at Police Department, Airport, Water Facilities, Parks and Town Hall

#### **Awards And Acknowledgements**

**Awards**. The Government Finance Officers Association (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the Town for the Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2022. This was the 25th consecutive year that the Town achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government has to publish an easily readable and efficiently organized ACFR. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Town began producing a Popular annual Financial Report (PAFR) for the fiscal year ended June 30, 2006, and has produced one every year since. The PAFR is a report based on the ACFR, but is specifically designed to be readily accessible and easily understandable to the general public and other interested parties without a background in public finance. The Town has received the GFOA Popular Annual Financial Report Award each year since 2006.

In addition, the Town also received GFOA's Distinguished Budget Presentation Award for its annual budget document for fiscal year 2021-22. In order to qualify for this award, the government's budget document must be judged proficient as a policy document, a financial plan, an operations guide, and a communications device. This also was the 24th consecutive year that the Town achieved this prestigious award.

**Acknowledgements.** The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance and Administration Departments of the Town. We wish to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and members of the Town Council for their unfailing support for maintaining the highest standards of professionalism in the management of the Town of Payson's finances.

Respectfully submitted,

Troy Smith
Town Manager

#### **Independent Auditor's Report**

Honorable Mayor and Members of the Town Council Town of Payson, Arizona

#### **Report on Audit of Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Payson, Arizona, (Town), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the respective budgetary comparison for the General Fund and HURF Fund, and the aggregate remaining fund information of the Town of Payson, Arizona, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Town of Payson, Arizona, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Change in Accounting Principle

As described in Note 1, the Town implemented the provisions of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, for the year ended June 30, 2023, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such
  procedures include examining, on a test basis, evidence regarding the amounts and disclosures
  in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, net pension liability information, and other postemployment benefit plan information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information

and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The Combining and Individual Fund Financial Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on other work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2024, on our consideration of Town of Payson, Arizona's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Payson, Arizona's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Payson, Arizona's internal control over financial reporting and compliance.

Heinfeld Meeth & Co. PC

Heinfeld, Meech & Co., P.C. Flagstaff, Arizona January 10, 2024 (This page intentionally left blank)

Management's Discussion and Analysis (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Town of Payson, Arizona (Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2023. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information we have furnished in our letters of transmittal, which can be found in the introductory section of this report.

#### **Financial Highlights**

- The Town's total net position of governmental activities increased \$14.6 million to \$98.8 million, and the business-type activities decreased \$205,395 to \$44.8 million, representing a 17 percent increase and less than one percent decrease, respectively, of the total net position of \$143.6 million.
- General revenues from governmental activities accounted for \$27.8 million in revenue, or 76 percent of all revenues from governmental activities. Program specific revenues in the form of charges for services and grants and contributions accounted for \$8.7 million or 24 percent of total governmental activities revenues. The Town had \$8.7 million of program specific revenues and \$863,281 in general revenues related to business-type activities.
- The Town had \$22.5 million in expenses related to governmental activities, a decrease of five percent from the prior fiscal year. The Town had \$9.3 million in expenses related to business-type activities, an increase of 21 percent from the prior fiscal year.
- Among major governmental funds, the General Fund had \$32.5 million in current fiscal year revenues, which primarily consisted of taxes, charges for services and intergovernmental revenues. The total expenditures of the General Fund were \$26.1 million. The General Fund's fund balance increased \$956,212 to \$21.1 million at the end of the current fiscal year, primarily as a result of an increase in intergovernmental revenues, primarily due to higher state shared tax revenues.
- The Enterprise Funds' net position at the end of the year amounted to \$44.8 million. The decrease in net position of \$205,395 was due to an increase in operating expenses, primarily as a result of the higher cost of chemicals and other supplies.

#### **Overview of Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Overview of Financial Statements**

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the Town's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences).

The government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, highways and streets, culture and recreation, public works, community development, and health and welfare. The business-type activities include the operations of the water system.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### **Overview of Financial Statements**

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General and HURF Funds, both of which are considered to be major funds.

**Proprietary funds.** The Town maintains one type of proprietary fund: enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its operations of the water system.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the Water Fund which is considered to be a major fund of the Town.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's budget process and pension plans. The Town adopts an annual budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund and the major Special Revenue Fund as required supplementary information. Schedules for the pension and other postemployment benefit plans have been provided as required supplementary information.

#### **Government-Wide Financial Analysis**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, governmental activities assets and deferred outflows exceeded liabilities and deferred inflows by \$98.8 million at the current fiscal year end. The business-type activities assets and deferred outflows exceeded liabilities and deferred inflows by \$44.8 million at the end of the current fiscal year.

The largest portion of the Town's governmental activities net position reflects its investment in capital assets (e.g., land, infrastructure, buildings and improvements, vehicles, machinery and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The Town uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the Town's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the Town's ongoing obligations to its citizens and creditors.

#### **Government-Wide Financial Analysis**

The following tables present a summary of the Town's net position for the fiscal years ended June 30, 2023 and June 30, 2022.

	Governmen	tal Activities		Business-Typ	oe Activities	Total		
	As of	As of	As of As of		As of	As of

At the end of the current fiscal year, the Town reported deficit unrestricted net position for governmental activities. The deficit is due to the recognition of other postemployment benefits and pension obligations. Positive net position was reported in all other categories. The same situation held true for the prior fiscal year.

The Town's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The principal retirement of \$438,359 of financed purchases payable, and \$1.3 million of notes payable.
- The addition of \$5.2 million of governmental activities and business-type capital assets through construction projects, infrastructure improvements and purchases of vehicles, machinery, and equipment.
- The net increase of \$2.5 million in net pension liabilities due to current year changes in estimates and payments.
- The net decrease of \$449,344 in total OPEB liabilities due to current year changes in estimates and payments.

#### **Government-Wide Financial Analysis**

**Changes in net position.** The Town's total revenues for the current fiscal year were \$43.1 million. The total cost of all programs and services was \$31.7 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2023 and June 30, 2022.

	Governmental Activities			Business-Type Activities					Total

#### **Government-Wide Financial Analysis**

The following are significant current year transactions that have had an impact on the change of net position.

- The increase of \$1.3 million in sales taxes due to increased economic activity and the continued impact of inflation.
- The increase of \$1.2 million in unrestricted state revenues as a result of an increase in the Town's share of the state motor vehicle fuel tax, largely due to the rebound of commuting, leisure travel, and commercial transportation after the COVID-19 pandemic.
- Depreciation expense of \$2.3 million from governmental activities and \$2.7 million from business-type activities.

The following table presents the cost of the Town's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and Town's taxpayers by each of these functions.

#### **Government-Wide Financial Analysis**

- The cost of all governmental activities this year was \$22.5 million. The cost of all business-type activities this year was \$9.3 million.
- Federal, State, and county governments and charges for services subsidized certain governmental programs with grants and contributions and other local revenues of \$8.7 million.
- Net cost of governmental activities of \$13.8 million was financed by general revenues, which
  are made up of primarily sales taxes of \$16.6 million and state shared revenues of \$7.7
  million.

#### **Financial Analysis of the Town's Funds**

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the Town's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

The financial performance of the Town as a whole is reflected in its governmental funds. As the Town completed the year, its governmental funds reported a combined fund balance of \$32.4 million, an increase of \$7.7 million due to a combination of increased revenues, and expenditures being less than budgeted.

The General Fund comprises 65 percent of the total fund balance. Approximately \$19.7 million or 93 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the Town. The fund balance increased \$956,212 to \$21.1 million as of fiscal year end. General Fund revenues increased \$3.7 million primarily due to increased sales tax revenue, state shared revenues, and grant awards. General Fund expenditures increased \$4.2 primarily due to the increased costs for personnel, goods and services.

The HURF Fund comprises 24 percent of total fund balance. The fund balance increased \$4.5 million from the prior year primarily due to a \$3.2 million transfer from the General Fund.

#### Financial Analysis of the Town's Funds

**Proprietary funds.** Net position of the Enterprise Funds at the end of the fiscal year amounted to \$44.8 million. The decrease in net position in the Enterprise Funds of \$205,395 from the prior fiscal year was primarily due to an increase in operating expenses.

#### **Budgetary Highlights**

A statement showing the budget amounts compared to the Town's actual financial activity for the General Fund and major special revenue fund is provided in this report as part of the basic financial statements. The significant variances are summarized as follows:

- The favorable variance of \$893,966 in public works expenditures was a result of several personnel vacancies.
- The favorable variance of \$1.8 million in general government expenditures was a result of budgeted contingency funds not being utilized during the year.

#### **Capital Assets and Debt Administration**

Capital Assets. As of the end of the current fiscal year, the Town had invested \$158.0 million in governmental capital assets and \$87.6 million in business-type capital assets, including buildings, facilities, vehicles, computers, equipment, and infrastructure assets. These amounts represent a net increase prior to depreciation of \$3.4 million and \$1.3 million from the prior fiscal year for governmental and business-type activities, respectively. The increases were primarily due to additions of vehicles, machinery and equipment, infrastructure, and improvements other than buildings. Total depreciation expense for the current fiscal year was \$2.3 million for governmental activities and \$2.7 million for business-type activities.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2023 and June 30, 2022.

	As of	As of
<b>Governmental Activities</b>	June 30, 2023	June 30, 2022
Land	\$ 84,821,270	\$ 84,821,270
Construction in progress	1,938,344	529,530
Buildings	10,853,237	10,573,529
Infrastructure	32,913,828	31,996,068
Improvements other than buildings	12,679,116	12,566,767
Vehicles, machinery and equipment	14,815,839	13,110,118
Less: accumulated depreciation	(48,415,551)	(45,637,497)
Total	\$109,606,083	\$107,959,785

#### **Capital Assets and Debt Administration**

	As of	As of
<b>Business-type Activities</b>	June 30, 2023	June 30, 2022
Land	\$ 1,840,494	\$ 1,840,494
Pipeline right to use	3,718,009	3,718,009
Construction in progress	235,498	51,810
Buildings	839,310	758,988
Improvements other than buildings	78,088,672	77,155,165
Vehicles, machinery and equipment	2,901,214	2,825,465
Less: accumulated depreciation	(32,068,904)	(29,399,821)
Total	\$ 55,554,293	\$ 56,950,110

The estimated cost to complete current construction projects is \$12.2 million for governmental activities and \$318,275 for business-type activities.

Additional information on the Town's capital assets can be found in Note 7.

**Debt Administration.** At year-end, the Town had \$2.3 million in governmental long-term debt outstanding with \$451,869 due within one year. The Town had \$30.3 million in business-type long-term debt outstanding, with \$1.4 million due within one year. Long-term debt decreased by \$438,359 for governmental activities and decreased \$1.3 million for business-type activities. The following presents a summary of long-term debt outstanding for the fiscal years ended June 30, 2023 and June 30, 2022.

The Governmental Activities balance for financed purchases payable was \$2,330,811 at June 30, 2023, and \$2,769,170 at June 30, 2022, respectively. The Business-type Activities balance for notes payable was \$30,253,260 at June 30, 2023, and \$31,583,143 at June 30, 2022, respectively.

State statutes currently limit the amount of general obligation debt a Town may issue to 20 percent of its total assessed valuation for water, sewer, lights, open space preserves parks, playgrounds and recreational facilities. The current 20 percent debt limitation for the Town is \$44.1 million. State statutes also currently limit the amount of general obligation debt a Town may issue to six percent of its total assessed valuation for all other purposes. The current six percent debt limitation for the Town is \$13.2 million. The Town's outstanding bonds are not considered general obligation bonds subject to statutory limits because the bonds are secured by sales taxes and special assessment.

Additional information on the Town's long-term debt can be found in Notes 8 through 10 in the notes to the financial statements.

#### **Economic Factors and Next Year's Budget**

Many factors were considered by the Town's officials during the process of developing the fiscal year 2023-24 budget for governmental funds. Among them:

- Fiscal year 2022-23 budget balance carry forward (estimated \$3.1 million).
- Employee salaries and benefits (estimated \$22.1 million).

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

#### **Contacting the Town's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to demonstrate the Town's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Finance Department, Town of Payson, 303 North Beeline Highway, Payson, Arizona 85541.

#### Note 1 – Summary of Significant Accounting Policies

The financial statements of the Town of Payson, Arizona (Town) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2023, the Town implemented the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). This Statement increases the usefulness of the financial statements by requiring the recognition of certain assets and liabilities for SBITAs. This Statement also requires a government to disclose essential information about the arrangement. The Town's analysis of SBITAs in effect at the beginning of the year resulted in no changes to beginning balances reported in the financial statements due to the implementation of this standard.

The more significant of the Town's accounting policies are described below.

#### A. Reporting Entity

The Town's major operations include police and fire protection, parks and recreation, transit services, certain social services and general administrative services. In addition, the Town owns and operates an enterprise fund which includes water services.

The Town is a municipal entity governed by a separately elected governing body. The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The Town is a primary government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the Town for financial statement presentation purposes and the Town is not included in any other governmental reporting entity. Consequently, the Town's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable.

#### **B.** Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the Town as a whole. The reported information includes all of the nonfiduciary activities of the Town. For the most part, the effect of internal activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. These statements are to distinguish between the governmental and business-type activities of the Town. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Town does not have any fiduciary activities.

#### Note 1 – Summary of Significant Accounting Policies

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Town does not allocate indirect expenses to programs of functions. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted state shared revenues, investment income and other items not included among program revenues are reported instead as general revenues.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Government-wide Financial Statements</u> — The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

<u>Fund Financial Statements</u> — Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Issuances of long-term debt and acquisitions under lease contracts and subscription-based information technology arrangements are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, state shared revenues, licenses and permits, charges for services, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met.

#### Note 1 – Summary of Significant Accounting Policies

Miscellaneous revenue is not susceptible to accrual because generally they are not measurable until received in cash. Unearned revenues arise when resources are received by the Town before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

The Town reports the following major governmental funds.

<u>General Fund</u> – The General Fund is the Town's primary operating fund. This fund accounts for all financial resources of the Town, except those required to be accounted for in other funds.

<u>HURF Fund</u> – The Highway User Revenue Fund (HURF) accounts for the Town's share of state taxes on gasoline, diesel fuels and other transportation related fees to be used solely for street and highway purposes. Eligible expenditures include the cost of personnel, right-of-way acquisitions, construction, reconstruction, maintenance, repair, roadside development of town roads, streets and bridges and the payment of the principal and interest on highway and street bonds.

The Town reports the following major proprietary funds.

<u>Water Fund</u> – This fund accounts for the Town's drinking water treatment and distribution system.

The Proprietary Fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for water services. Operating expenses for these funds include the cost of sales and services, administrative expenses, and depreciation/amortization on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### Note 1 – Summary of Significant Accounting Policies

#### D. Cash and Investments

For purposes of the Statement of Cash Flows, the Town considers all highly liquid investments (including restricted investments) with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash on hand, cash in bank, cash held by fiscal agent, and cash and investments held by the State Treasurer.

Cash and investments are pooled, except for investments that are restricted under provisions of bond indentures or other restrictions that are required to be reported in the individual funds.

State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, certificates of deposit in eligible depositories, repurchase agreements, obligations of the State of Arizona or any of its counties or incorporated cities or duly organized school Towns, improvement Towns in this state, and the State Treasurer's Local Government Investment Pool. Investments are stated at fair value.

Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable federal depository insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

#### E. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is a component of revenue in the governmental fund financial statements and of nonoperating revenues in the proprietary fund financial statements.

#### F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

#### Note 1 – Summary of Significant Accounting Policies

#### **G.** Property Tax Calendar

Gila County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. However, a lien against real and personal property assessed attaches on the first day of January preceding assessment and levy thereof.

### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

#### I. Restricted Assets

Certain proceeds of the Town's bonds and loans, as well as certain resources set aside for their repayment, are classified as restricted cash and investments because their use is limited by applicable loan covenants. In addition, customer deposits for utility services are classified as restricted assets because their use is limited to the repayment to those customers.

#### J. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, machinery, and equipment; construction in progress; and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Capital assets are defined by the Town as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life in excess of one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the life of the asset are not capitalized.

#### Note 1 – Summary of Significant Accounting Policies

Capital assets are depreciated using the straight-line method over the estimated useful life of the asset. Intangible right-to-use assets are amortized over the shorter of the lease/subscription term or the underlying asset's useful life. The estimated useful lives and amortization periods are as follows:

Buildings 30 years Improvements other than buildings 10 - 35 years Infrastructure 35 - 50 years Vehicles, furniture, machinery and equipment 5 - 15 years

#### K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

#### L. Compensated Absences

The Town's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements and in the proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to liquidate the governmental funds liabilities for compensated absences.

#### M. Leases

As lessor, the Town recognizes lease receivables with an initial, individual value of \$50,000 or more. If there is no stated rate in the lease contract (or if the stated rate is not the rate the Town charges the lessee) and the implicit rate cannot be determined, the Town uses an interest rate based on the Applicable Federal Rate as the discount rate to measure lease receivables.

#### Note 1 – Summary of Significant Accounting Policies

#### N. Pensions and Other Postemployment Benefits

For purposes of measuring the net pension and other postemployment benefit (OPEB) liabilities, related deferred outflows of resources and deferred inflows of resources, and related expenses, information about the pension and OPEB plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### O. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### P. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

#### Q. Net Position Flow Assumption

In the government-wide and proprietary fund financial statements the Town applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

#### Note 1 – Summary of Significant Accounting Policies

#### R. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Note 2 - Fund Balance Classifications

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

**Nonspendable.** The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

**Restricted.** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

**Committed.** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Town Council, the Town's highest level of decision making authority, by resolution or ordinance. Those committed amounts cannot be used for any other purpose unless the Town Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

**Assigned.** Amounts in the assigned fund balance classification are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Town Council or a management official delegated that authority by formal Town Council action.

#### Note 2 – Fund Balance Classifications

**Unassigned.** Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The Town applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

It is the policy of the Town to maintain a fund reserve, if possible, for the General Fund to pay expenditures caused by unforeseen emergencies, for shortfalls caused by revenue declines and to eliminate any short-term borrowing for cash flow purposes. This reserve shall be maintained at an amount that represents five percent of total General Fund operating budgeted revenues. Annual contributions will be budgeted from General Fund resources as available to maintain the target reserve level. This is in addition to the carryover balance discussed below.

The Town's General Fund will maintain a year-to-year "carryover balance", if possible, in an amount necessary to maintain adequate cash flow and to reduce the demand for short-term borrowing. The carryover balance will equal 90 days operating expenditures from the prior year.

All other funds would report a negative unassigned fund balance if the fund fell into a deficit.

Reserve funds in the Water Fund should equal five percent of prior year total operating expenses and have a carry-over balance equal to 90 days of prior year operating expenses.

The Town has established an equipment reserve fund and when fiscal resources permit, appropriates funds to it annually to provide for the timely replacement of equipment.

All expenditures drawn from reserve accounts shall require prior Town Council approval unless previously specifically authorized by the Town Council for expenditures in the annual budget.

#### Note 2 – Fund Balance Classifications

The table below provides detail of the major components of the Town's fund balance classifications at year end.

Fund Balances:	Ge	eneral Fund	<u>H</u>	IURF Fund	on-Major vernmental Funds
Nonspendable					
Prepaid items	\$	175,085	\$		\$
Restricted:					
Highways and streets				7,614,252	
Court enhancement					92,195
Capital projects					3,564,998
Assigned:					
General government		440,067			
Public safety		214,717			
Culture and recreation		603,543			
Unassigned		19,655,861			
Total fund balances	\$	21,089,273	\$	7,614,252	\$ 3,657,193

#### Note 3 – Stewardship, Compliance and Accountability

<u>Budgetary Information</u> - By Arizona Constitution, expenditures may not legally exceed the expenditure limitation described below of all fund types as a whole. For management purposes, the Town adopts a budget by department for the General Fund and in total by fund for other funds. The Town Manager, subject to Town Council approval, may at any time transfer any unencumbered appropriation balance or portion thereof between departments. The adopted budget cannot be amended in any way without Town Council approval.

Legal budgets are adopted in accordance with generally accepted accounting principles for the General, Special Revenue, Debt Service, and Capital Projects Funds (except for the JCEF/FTG Fund, in which the Town does not adopt a budget) on essentially the same modified accrual basis of accounting used to record actual revenues and expenditures.

The Town is subject to the State of Arizona's Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the carryover unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complied with this law during the year.

No supplementary budgetary appropriations were necessary during the year.

#### Note 4 – Cash and Investments

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the Town's deposits may not be returned to the Town. The Town does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the Town's deposits was \$3,010,069 and the bank balance was \$4,106,214. At year end, \$3,856,214 of the Town's deposits were covered by collateral held by the pledging financial institution in the Town's name.

Fair Value Measurements. The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The State Treasurer's pools are external investment pools, the Local Government Investment Pool (Pool 5) and Local Government Investment Pool-Government (Pool 7), with no regulatory oversight. The pools as an investment company are not registered with the Securities and Exchange Commission. The activity and performance of the pools are reviewed monthly by the State Board of Investment. The fair value of each participant's position in the State Treasurer investment pools approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. The cash with trustee is on deposit and invested in money market accounts and mutual funds. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

All investments in which the fair value hierarchy is applicable are measured at fair value on a recurring basis. At year end, cash and investments as of June 30, 2023 are classified in the accompanying financial statements as follows:

Carrying amount of investments	\$ 53,204,168
Carrying amount of cash deposits	3,010,069
Less: restricted cash and investments	(3,070,862)
Petty cash	1,485
Total pooled cash and investments	\$ 53,144,860

#### Note 4 – Cash and Investments

At year end, the Town's investments consisted of the following:

Investment Type	Maturities	Fair Value	Category
State Treasurer's investment pool 7	Days	\$ 53,204,168	Not applicable

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will affect the fair value of an investment. In accordance with its investment policy, the Town manages its exposure to declines in fair values by limiting the average maturity of investments to less than one year.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. The Town does not have a formal policy with respect to credit risk. The State Treasurer's Local Government Investment Pool 7 was rated AAA by Moody's at year end.

Custodial Credit Risk. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town's investment policy requires the Town to invest in obligations secured by the federal government; and, therefore, is not subject to custodial credit risk.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Town does not have a formal policy in regards to concentration of credit risk.

#### Note 5 – Receivables

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of intergovernmental receivables. Intergovernmental receivables, net of allowance for uncollectibles, as of year end for the Town's individual major funds and non-major governmental funds in the aggregate consisted of the following:

			Ν	lon-Major
General	H	HURF	Go	vernmental
Fund	F	und	Funds	
_				
\$ 997,512	\$	467,408	\$	866
\$ 997,512	\$	467,408	\$	866
\$ \$	Fund \$ 997,512	Fund I	Fund Fund  \$ 997,512 \$ 467,408	General Fund         HURF Fund         Go           \$ 997,512         \$ 467,408         \$

#### Note 6 – Leases Receivable

The Town acts as a lessor in three agreements to provide land for telecommunication towers under the provisions of contracts classified as leases. The related receivables under the lease agreements have been recorded at the present value of their future minimum lease payments as of the inception date. Lease revenue of \$13,314 and \$31,536 and related interest revenue of \$270 and \$1,820 is recorded as miscellaneous revenue in the General and Water Funds, respectively.

Future minimum lease payments to be received under the lease agreements at year end are summarized as follows:

		G	Governmental		Business-type	
Year ending June 30:			Activities	Ad	ctivities	
	2024	\$	13,584	\$	33,555	
	2025		13,584		33,752	
	2026		14,940		33,951	
	2027		14,940		34,162	
	2028		14,940		34,378	
	2029-33		29,880		175,194	
	2034-38				181,144	
	2039-43				137,012	
	2044-47				71,921	
Total		\$	101,868	\$	735,069	

Note 7 – Capital Assets

A summary of capital asset activity at year end is as follows:

	Beginning			Ending
Governmental Activities	Balance	Increase	Decrease	Balance
Capital assets, not being depreciated:				
Land	\$ 84,821,270	\$	\$	\$ 84,821,270
Construction in progress	529,530	1,408,814		1,938,344
Total capital assets, not being depreciated	85,350,800	1,408,814		86,759,614
Capital assets, being depreciated:				
Buildings	10,573,529	279,708		10,853,237
Infrastructure	31,996,068	917,760		32,913,828
Improvements and other buildings	12,566,767	112,349		12,679,116
Vehicles, machinery and equipment	13,110,118	1,184,881	520,840	13,774,159
Total capital assets being depreciated	68,246,482	2,494,698	520,840	70,220,340
Less accumulated depreciation for:				
Buildings	(6,230,939)	(298,749)		(6,529,688)
Infrastructure	(22,825,926)	(607,668)		(23,433,594)
Improvements and other buildings	(7,539,528)	(449,329)		(7,988,857)
Vehicles, machinery and equipment	(9,041,104)	(901,468)	(520,840)	(9,421,732)
Total accumulated depreciation	(45,637,497)	(2,257,214)	(520,840)	(47,373,871)
Total capital assets, being depreciated, net	22,608,985	237,484		22,846,469
Governmental activities capital assets, net	\$107,959,785	\$ 1,646,298	\$	\$109,606,083

Depreciation and amortization expense were charged to governmental functions as follows:

Governmental activities:	\$	54,760
General government		657,792
Public safety		744,269
Highways and streets		665,116
Culture and recreation		107,137
Community development		28,140
Total depreciation expense	\$ 2	2,257,214

Note 7 – Capital Assets

	Beginning	Ending		
Business-type Activities	Balance	Increase Decrease		Balance
Capital assets, not being depreciated:				
Land	\$ 1,840,494	\$	\$	\$ 1,840,494
Pipeline right to use	3,718,009			3,718,009
Construction in progress	51,810	1,102,945	919,257	235,498
Total capital assets, not being depreciated	5,610,313	1,102,945	919,257	5,794,001
Capital assets, being depreciated:				
Buildings	758,988	80,322		839,310
Improvements other than buildings	77,155,165	933,507		78,088,672
Vehicles, machinery and equipment	2,769,445	131,769		2,901,214
Total capital assets being depreciated	80,683,598	1,145,598		81,829,196
Less accumulated depreciation for:				
Buildings	(598,397)	(17,316)		(615,713)
Improvements other than buildings	(26,796,978)	(2,507,848)		(29,304,826)
Vehicles, machinery and equipment	(1,948,426)	(199,939)		(2,148,365)
Total accumulated depreciation	(29,343,801)	(2,725,103)		(32,068,904)
Total capital assets, being depreciated, net	51,339,798	(1,579,506)		49,760,292
Business-type activities capital assets, net	\$ 56,950,110	\$ (476,560)	\$	\$ 55,554,293

Depreciation of \$2,725,103 was charged to water for business-type functions.

<u>Construction Commitments</u> – At year end, the Town had contractual commitments related to various capital projects. At year end the Town had spent \$2.2 million on the projects, which includes \$1.9 million from governmental activities and \$235,498 from business-type activities, and had estimated remaining contractual commitments of \$12.5 million, which includes \$12.2 million from governmental activities and \$318,275 from business-type activities.

#### Note 8 – Financed Purchases Payable

The Town has acquired land improvements, vehicles and equipment, and energy retrofits under the provisions of contracts classified as financed purchases payable. Revenues from the General Fund and the HURF Fund are used to pay the debt obligations. Amortization of assets recorded under financed purchases payable is included with depreciation expense.

Annual debt service requirements to maturity on financed purchases payable at year end are summarized as follows:

			Governmental Activities				
Year ending June 30:		P	Principal Interes		nterest		
	2024	\$	\$ 451,869 465,861		\$ 451,869 \$		68,284
	2025				55,904		
	2026		377,715		43,064		
	2027		340,868		31,693		
	2028		351,899		22,396		
	2029-33		342,599		39,845		
Total		\$ 2	2,330,811	\$	261,186		

#### Note 9 – Notes Payable

The Town has entered into five Water Infrastructure Finance Authority of Arizona (WIFA) loans for improvements to the Town's water system. The Water Fund de-obligated \$2,407,192 of the original WIFA loan of \$6,585,000, leaving a balance of \$3,412,726. Additionally, the Town entered into a \$6,250,000 loan agreement and three additional \$10,000,000 loan agreements with WIFA. The loans will be used to fund Phase II of the CC Cragin Reservoir Project. The loan will be drawn upon as funds are expended with semi-annual interest and annual principal payments due at 2.2 percent to 2.891 percent through fiscal year 2047.

			Outstanding	Due
	Interest	Remaining	Principal	Within
	Rates	Maturities	June 30, 2023	One Year
Business-type activities:;				
Water Infrastructure Authority	2.2-2.891%	7/1/23-46	\$ 30,253,260	\$ 1,363,224

### Note 9 – Notes Payable

Annual debt service requirements to maturity on the loans payable at year end are summarized as follows:

	Business-Type Activities			
Year ending June 30,	Principal	Interest		
2024	\$ 1,363,224	\$ 582,119		
2025	1,397,410	551,534		
2026	1,432,464	520,169		
2027	1,468,407	488,004		
2028	1,505,264	445,095		
2029-33	7,318,227	1,735,957		
2034-38	5,521,888	1,158,178		
2039-43	6,188,075	625,832		
2044-47	4,058,301	101,274		
Total	\$ 30,253,260	\$ 6,208,162		

#### **Pledged Revenues**

The Town has pledged certain future revenues to repay the loans as follows.

The Town has pledged net revenues from the operation of the Water System to repay \$30.3 million in business-type loans through the Water Infrastructure Finance Authority of Arizona. Proceeds of the loan provide financing to pay the costs of making improvements, extensions, renewals, replacements, and repairs to the water system. The loans are payable solely from net revenues from the operation of the Water System and are payable through 2047; however, as of June 30, 2023, the Town has drawn down 100 percent of the loan. Annual principal and interest payments on the loans are expected to require less than 50 percent of net revenues. The total principal and interest remaining to be paid on the loan is \$36,461,422. Principal and interest paid for the current year and total net revenues from the operation of the Water System were \$1,329,883, \$611,944, and \$9,607,183, respectively.

#### Note 10 – Changes in Long-Term Liabilities

Long-term liability activity for the current fiscal year was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Financed purchased payable	\$ 2,769,170	\$	\$ 438,359	\$ 2,330,811	\$ 451,869
Total OPEB liability	19,040,062		1,471,980	17,568,082	
Net pension liability	24,197,873	1,949,879		26,147,752	
Compensated absences payable	1,721,352	1,208,137	1,235,742	1,693,747	762,186
Governmental activity long-term					
Liabilities	\$ 47,728,457	\$ 3,158,016	\$ 3,146,081	\$ 47,740,392	\$ 1,214,055
	Beginning			Ending	Due Within
	Balance	Additions	Reductions	Balance	One Year
Business-type activities:					
Total OPEB liability	\$ 1,695,750	\$ 1,022,636	\$	\$ 2,718,386	\$
Net pension liability	1,566,376	540,605		2,106,981	
Notes payable	31,583,143		1,329,883	30,253,260	1,363,224
Compensated absences payable	266,636	177,676	188,745	255,567	115,005
Governmental activity long-term					
Liabilities	\$ 35,111,905	\$ 1,740,917	1,518,628	\$ 35,334,194	\$ 1,478,229

#### Note 11 – Interfund Receivables And Payables

At year end, interfund balances were as follows:

#### Interfund transfers:

		Transfers in					
		Non-Major					
	General	HURF	Governmental				
Transfers out	Fund	Fund	Funds		Total		
General Fund	\$	\$ 3,215,000	\$	2,647,100	\$ 5,862,100		
Water Fund	400,000			147,900	547,900		
Total	\$ 400,000	\$ 3,215,000	\$	2,795,000	\$ 6,410,000		

The transfer from the General Fund to the Non-Major Governmental Funds was to fund an annual allocation for equipment replacement and to pay special assessments on Town owned property within the special assessment Town. The transfer from the General Fund to the HURF Fund was to fund various street rehabilitation projects. The transfer from the Water Fund to the General Fund was to reimburse the General Fund for overhead expenses attributed to the Water Fund in the prior fiscal year.

#### Note 12 - Contingent Liabilities

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

<u>Lawsuits</u> – The Town is a party to a number of various types of lawsuits, many of which normally occur in governmental operations. The ultimate outcome of the actions is not determinable, however, Town management believes that the outcome of these proceedings, either individually or in the aggregate, will not have a materially adverse effect on the accompanying financial statements.

#### Note 13 – Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the Town joined the Arizona Municipal Risk Pool (Pool) as an alternative to escalating general liability insurance costs. The Pool is made up of various towns and cities within Arizona that operate a common risk management and insurance program. The Pool is structured such that member premiums are based on an actuarial review that will provide adequate reserves to allow the Pool to meet its expected financial obligations. The Pool has the authority to assess its' members additional premiums should reserves and annual premiums be insufficient to meet the Pool's obligations.

The Town joined Kairos Health Arizona, Inc. for risks of loss related to employee health and accident claims. Kairos Health Arizona, Inc. is a public entity risk pool currently operating as a common risk management and insurance program for towns and cities in the State. The Town pays monthly premiums to Kairos Health Arizona, Inc. for its employee health and accident insurance coverage. The agreement provides that Kairos Health Arizona, Inc. will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The Town joined the Arizona Municipal Workers' Compensation Pool (Pool) together with other governments in the state for risks of loss related to workers' compensation claims. The Pool is a public entity risk pool currently operating as a common risk management and insurance program for towns and cities in the State. The Town is responsible for paying a premium, based on an experience rating formula that allocates pool expenditures and liabilities among members.

#### Note 14 – Pensions and Other Postemployment Benefits

The Town contributes to the plans described below. The Arizona State Retirement System and Public Safety Personnel Retirement System plans are component units of the State of Arizona.

**Aggregate Amounts.** At June 30, 2023, the Town reported the following aggregate amounts related to pensions and OPEB for all plans to which it contributes:

	Governmental		Business-type			
		Activities		Activities		Total
Net pension liabilities	\$	26,147,751	\$	2,106,982	\$	28,254,733
Total OPEB liability		17,568,082		2,718,386		20,286,468
Deferred outflows of resources		7,044,892		351,320		7,396,212
Deferred inflows of resources		2,433,010		283,306		2,716,316
Pension expense		2,810,945		343,586		3,154,531
OPEB expense		(3,909,196)		910,423		(2,998,773)

The ASRS and PSPRS OPEB plans are not further disclosed because of their relative insignificance to the Town's financial statements.

The Town reported \$3,686,362 of pension and OPEB contributions as expenditures in the governmental funds related to all plans to which it contributes.

#### A. Arizona State Retirement System

**Plan Description.** Town employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at www.azasrs.gov.

The ASRS OPEB plans are not further disclosed because of their relative insignificance to the Town's financial statements.

#### Note 14 – Pensions and Other Postemployment Benefits

**Benefits Provided.** The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

### Retirement Initial Membership Date:

	IVICIIIDO	Jiship Date.
	Before July 1, 2011	On or After July 1, 2011
Years of service and age	Sum of years and age equals 80	30 years, age 55
required to receive	10 years, age 62	25 years, age 60
benefit	5 years, age 50*	10 years, age 62
	Any years, age 65	5 years, age 50*
		Any years, age 65
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%

<sup>\*</sup>With actuarially reduced benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.17 percent (12.03 percent for retirement and 0.14 percent for long-term disability) of the members' annual covered payroll, and the Town was required by statute to contribute at the actuarially determined rate of 12.17 percent (11.92 percent for retirement, 0.11 percent for health insurance premium benefit, and 0.14 percent for long-term disability) of the active members' annual covered payroll. The Town's contributions to the pension plan for the year ended June 30, 2023 were \$805,191.

#### Note 14 – Pensions and Other Postemployment Benefits

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work in positions that would typically be filled by an employee who contributes to ASRS. The Town was required by statute to contribute at the actuarially determined rate of 9.68 percent (9.62 for retirement and 0.06 percent for long-term disability). ACR contributions are included in employer contributions presented above.

The Town's pension plan contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund.

**Pension Liability.** The net pension liability was measured as of June 30, 2022. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2021, to the measurement date of June 30, 2022. The Town's proportion of the net liability was based on the Town's actual contributions to the applicable plan relative to the total of all participating employers' contributions to the plan for the year ended June 30, 2022.

At June 30, 2023, the Town reported the following amounts for its proportionate share of the pension plan net liability. In addition, at June 30, 2022, the Town's percentage proportion for the plan and the related change from its proportion measured as of June 30, 2021 was:

Net	Town	Increase	
 Liability	% Proportion	(Decrease)	
\$ 8,802,574	0.054	0.001	

**Pension Expense and Deferred Outflows/Inflows of Resources.** The Town has deferred outflows and inflows of resources related to the net pension liability. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. The Town's pension expense for the year ended June 30, 2023 was \$989,916.

#### Note 14 – Pensions and Other Postemployment Benefits

The Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	D	eferred	Deferred
	Ou	tflows of	Inflows of
	Re	esources	 Resources
Differences between expected and actual experience	\$	75,003	\$
Changes of assumptions or other inputs		436,889	
Net difference between projected and actual earnings			
on pension investments			231,868
Changes in proportion and differences between			
contributions and proportionate share of contributions		156,211	
Contributions subsequent to the measurement date		805,191	
Total	\$	1,473,294	\$ 231,868
			-

The amounts of deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an adjustment of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year End	ding June 30	):	
	2024	\$	515,674
	2025		(47,977)
	2026		(402,578)
	2027		371,116

#### Note 14 – Pensions and Other Postemployment Benefits

**Actuarial Assumptions.** The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2021
Actuarial roll forward date	June 30, 2022
Actuarial cost method	Entry age normal
Investment rate of return	7.0%
Inflation	2.3%
Projected salary increases	2.9-8.4%
Permanent base increases	Included
Mortality rates	2017 SRA Scale U-MP

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation.

The long-term expected rate of return on ASRS plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, excluding any expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
		Expected
	Target	Geometric Real
Asset Class	Allocation	Rate of Return
Equity	50%	3.90%
Credit	20	5.30
Interest rate sensitive bonds	10	(0.20)
Real estate	20	6.00
Total	100%	

#### Note 14 – Pensions and Other Postemployment Benefits

**Discount Rate.** The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

		Current					
1		% Decrease		Discount Rate		1% Increase	
Rate		6.0%		7.0%		8.0%	
Net liability	\$	12,987,936	\$	8,802,574	\$	5,312,636	

**Contributions payable.** The Town's accrued payroll and employee benefits included \$36,426 of outstanding pension contribution amounts payable to ASRS for the year ended June 30, 2023.

**Pension Plan Fiduciary Net Position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

#### B. Public Safety Personnel Retirement System

**Plan Descriptions.** Town public safety employees who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSDCRP). The PSPRS administers agent and cost-sharing multiple-employer defined benefit pension plans, and agent and cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plans.

#### Note 14 – Pensions and Other Postemployment Benefits

A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4. Employees who were PSPRS members before July 1, 2017, participate in the agent plans, and employees who became PSPRS members on or after July 1, 2017, participate in either agent plans or cost-sharing plans (PSPRS Tier 3 Risk Pool). The PSPRS issues a publicly available financial report that includes their financial statements and required supplementary information. The report is available on the PSPRS website at <a href="https://www.psprs.com">www.psprs.com</a>.

The PSPRS Tier 3 Risk Pool plan and the PSPRS OPEB plan are not further disclosed because of their relative insignificance to the Town's financial statements.

**Benefits Provided.** The PSPRS provides retirement, disability, and survivor benefits. State statute establishes benefits terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows.

	Initial Membership Date:				
Retirement and disability:	Before January 1, 2012	On or after January 1, 2012 and before July 1, 2017			
Years of service and age required to receive benefit	20 years of service, at any age 15 years of service, age 62	25 years of service or 15 years of credited service, age 52.5			
Final average salary is based on	Highest 36 consecutive months of last 20 years	Highest 60 consecutive months of last 20 years			
Normal retirement	50% less 2.0% for each year of credited service less than 20 years or plus 2.0% to 2.5% for each year of credited service over 20 years, not to exceed 80%	1.5% to 2.5% per year of credited service, not to exceed 80%			
Accidental disability retirement	50% or normal retireme	ent, whichever is greater			
Catastrophic disability retirement		ed to either 62.5% or normal retirement, r is greater			
Ordinary disability retirement	credited service, whichever is greater, m	al years of credited service or 20 years of ultiplied by years of credited service (not ars) divided by 20			
Survivor benefit:	to exceed to yet	, aaca 5, 15			
Retired members	80% to 100% of retired n	nember's pension benefit			
Active members	•	retirement benefit or 100% of average ne result of injuries received on the job			

#### Note 14 – Pensions and Other Postemployment Benefits

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

**Employees Covered by Benefit Terms.** At June 30, 2023, the following employees were covered by the agent pension plan's benefit terms:

	PSPRS - Police	PSPRS - Fire
Retirees and beneficiaries	25	15
Inactive, non-retired members	12	3
Active members	11	20
Total	48	38

**Contributions.** State statutes establish the pension contribution requirements for active PSPRS employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2023, are indicated below. Rates are a percentage of active members' annual covered payroll.

	PSPRS - Police	PSPRS - Fire
Active members – pension	7.65% to 11.65%	7.65% to 11.65%
Town:		
Pension	68.43%	40.78%
Health insurance	1.29%	1.03%

The Town's contributions to the pension plans for the year ended June 30, 2022 were:

	PSPRS - Police		PSPRS - Fire		
Pension contributions	\$	1,831,912	\$	1,240,234	

The Town's pension contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund.

**Pension Assets/Liabilities.** At June 30, 2023, the Town reported the following pension assets and liabilities.

		PRS - Police	PSPRS - Fire		
Net Pension (Assets) Liabilities	\$	12,161,385	\$	7,290,774	

#### Note 14 – Pensions and Other Postemployment Benefits

The net pension liabilities were measured as of June 30, 2022. The total pension liability used to calculate the net pension asset or liability was determined by an actuarial valuation as of that date. The total pension liabilities as of June 30, 2022 reflect changes in actuarial assumptions based on the results of an actuarial experience study for the five-year period ended June 30, 2021, including decreasing the discount rate from 7.3 percent to 7.2 percent, changing the wage inflation rate from 3.5 percent to a range of 2.75-15.0 percent, and increasing the cost-of-living adjustment rate from 1.75 percent to 1.85 percent.

**Actuarial Assumptions.** The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2022
Actuarial cost method	Entry age normal
Investment rate of return	7.2%
Wage inflation	3.25% to 15%
Price inflation	2.5%
Cost-of-living adjustment	1.85%
Mortality rates	PubS-2010 tables

Actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2021. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The PSPRS Board adopted the experience study recommended changes which were applied to the June 30, 2022 actuarial valuation.

The long-term expected rate of return on PSPRS pension plan investments was determined to be 7.2 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. public equity	24%	3.49%
International public equity	16	4.47
Global private equity	20	7.18
Other assets (capital appreciation)	7	4.83
Core bonds	2	0.45
Private credit	20	5.10
Diversifying strategies	10	2.68
Cash – Mellon	1	(0.35)
Total	100%	

#### Note 14 – Pensions and Other Postemployment Benefits

**Discount Rate.** At June 30, 2022, the discount rate used to measure the total pension liability was 7.2 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2021.

The projection of cash flows used to determine the discount rate assumed that pension plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current pension plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Changes in the Net Pension (Assets)/Liability

	Increase (Decrease)					
	<b>Total Pension</b>		Plan Fiduciary		Net Pension	
PSPRS - Police		Liability	N	et Position	(Asset) Liability	
Balances at June 30, 2021	\$	21,986,269	\$	9,898,120	\$	12,088,149
Changes for the year:

Balances at June 30, 2022	\$	19,214,497	\$	11,923,723	\$	7,290,774

Sensitivity of the Net Pension (Assets) Liabilities to Changes in the Discount Rate. The following presents the Town's net pension (assets) liabilities calculated using the discount rate noted above, as well as what the Town's net pension (assets) liabilities would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Current						
	1	1% Decrease		Discount Rate		% Increase	
PSPRS - Police:		_		_		_	
Rate		6.20%		7.20%		8.20%	
Net pension (assets) liability	\$	14,992,116	\$	12,161,385	\$	9,837,313	
PSPRS - Fire							
Rate		6.20%		7.20%		8.20%	
Net pension (assets) liability	\$	9,916,265	\$	7,290,774	\$	5,141,727	

**Pension Plan Fiduciary Net Position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued PSPRS financial report. The report is available on the PSPRS website at <a href="https://www.psprs.com">www.psprs.com</a>.

#### Note 14 – Pensions and Other Postemployment Benefits

**Pension Expense.** For the year ended June 30, 2023, the Town recognized the following as pension expense:

	PSPF	RS - Police	PSPRS - Fire		
Pension expense	\$	983,279	\$	1,181,335	

**Pension Deferred Outflows/Inflows of Resources.** At June 30, 2023, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	ı	Deferred		
	<b>Outflows</b> of		Defer	red Inflows
PSPRS - Police:	R	lesources	of F	Resources
Differences between expected and actual experience	\$	210,684	\$	157,496
Changes of assumptions or other inputs		348,528		
Net difference between projected and actual				
earnings on pension plan investments		189,256		
Contributions subsequent to the measurement date		1,831,912		
Total	\$	2,580,380	\$	157,496
PSPRS - Fire				
Differences between expected and actual experience	\$	1,190,300	\$	628,014
Changes of assumptions or other inputs		711,747		
Net difference between projected and actual				
earnings on pension plan investments		200,257		
Contributions subsequent to the measurement date		1,240,234		
Total	\$	3,342,538	\$	628,014

#### Note 14 – Pensions and Other Postemployment Benefits

The amounts reported as deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an increase in the net pension assets or a reduction of the net pension liabilities in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized as pension expenses as follows:

Year Ending June 30:		PSP	RS - Police	PSPRS - Fire		
	2024	\$	402,296	\$	457,748	
	2025		37,778		344,336	
	2026		(83,449)		180,658	
	2027		234,347		491,548	

#### C. Single-Employer OPEB Plan

Plan Description. The Town provides postretirement healthcare benefits in accordance with the Town Personnel Rules and Procedures manual. A Council Member who was elected prior to 1998 and has served eight (8) consecutive years will be eligible for retirement Medical, Dental, Vision and Life Insurance benefits upon reaching sixty (60) years of age. No Council Member who was elected or appointed to the office in the year 1998 or later shall be eligible under any circumstances, for retirement Medical, Dental, Vision and Life Insurance benefits. The Town ended the retirement program and the postretirement health care benefit plan for employees hired after January 2010.

The plan is a single-employer defined benefit OPEB plan administered by the Town. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. Generally, resources from the General Fund are used to pay for postemployment benefits.

In 2010, the Town implemented a one-time Early Retirement Incentive Program (ERIP). One of the incentives for employees meeting the criteria was 100% medical insurance paid by the Town per the current postretirement health care benefit program. Eight employees accepted the ERIP.

**Benefits Provided.** The plan provides postretirement insurance (health, dental, vision, and life) benefits for eligible retirees either up to age 65 (if hired on or after May 10, 1997) or through the individual's lifetime (if hired before May 10, 1997). To be eligible for Town-paid benefits, an employee must have acquired 70 points (years of age plus years of service) under the Arizona Statement Retirement System (ASRS) and be a benefited employee with 10 consecutive years of full-time satisfactory service.

#### Note 14 – Pensions and Other Postemployment Benefits

Contributions. The Town makes average monthly contributions of \$307 for employee only health care benefits plans and \$684 for employee and family health care benefit plans. The Town makes average monthly contributions of \$588 for retiree only postretirement health care benefits plans and \$1,149 for retiree and family postretirement health care benefit plans. The Town's regular insurance providers underwrite the retiree policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. A separate financial report is not issued for the plan.

**Employees covered by benefit terms.** The following employees were covered as of the effective date of the OPEB valuation:

Inactive employees or beneficiaries currently receiving benefit payments	60
Active employees	37
Total	97

**Total OPEB Liability.** The Town's total OPEB liability of \$20,286,468 was measured as of June 30, 2023, and was determined by an actuarial valuation as of July 1, 2021.

Actuarial Assumptions and Other Inputs. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The total OPEB liability in the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Measurement date June 30, 2023
Actuarial valuation date July 1, 2021
Interest rate 3.86%
Inflation rate 3.00%

Projected salary increases 3% per annum

Health care cost trend rate:

Medical and Prescription Drug 5.5% for 2023, 5.20 percent for 2024-2069,

and 4.50 percent for 2070 and later years

Retiree contribution increase Consistent with medical/drug trends

ASRS subsidy increases None Cost of living adjustments N/A

#### Note 14 – Pensions and Other Postemployment Benefits

The discount rate is based on the estimate of expected long-term plan experience. At June 30, 2023, the discount rate used to measure the total OPEB liability was 3.86 percent, which was not the same as the discount rate used as of July 1, 2021.

Mortality rates were based on the 2017 State Retirement of Arizona (SRA) Mortality Table, projected to 2017 and Pub-2010 General Employer Mortality table, projected from 2017.

#### **Changes in the Total OPEB Liability**

Total OPEB Liability – beginning of year	\$ 20,735,812
Changes for the year:	
Service cost	131,778
Interest	753,976
Changes in assumptions or other inputs	(457,857)
Benefit payments	(877,241)
Total OPEB Liability – end of year	\$ 20,286,468

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.86 percent) or 1-percentage-point higher (4.86 percent) than the current discount rate:

	19	1% Decrease (2.86%)		Discount Rate (3.86%)		% Increase (4.86%)
Net OPEB liability (asset)	\$	23,220,937	\$	20,286,468	\$	17,881,223

#### Note 14 – Pensions and Other Postemployment Benefits

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (4.5 percent decreasing to 3.5 percent) or 1-percentage-point higher (6.5 percent decreasing to 5.5 percent) than the current healthcare cost trend rates:

	19	% Decrease	Т	rend Rate	1	% Increase	
		(4.5%		(5.5%	(6.5%		
	de	ecreasing to	de	ecreasing to	de	ecreasing to	
		3.50%)	_	4.50%)		5.50%)	
Net OPEB liability (asset)	\$	17,579,981	\$	20,286,486	\$	23,558,750	

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.** For the year ended June 30, 2023 the Town recognized OPEB expense of (\$2,998,773). At June 30, 2023, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and		
actual experience	\$	\$ 121,789
Changes of assumptions or other inputs		1,577,149
Total	\$	\$ 1,698,938

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 3	30:	
	2024	\$ (1,657,315)
	2025	(41,623)

## Town of Payson, Arizona Notes to Required Supplementary Information June 30, 2023

#### Note 1 – Pension and OPEB Plan Schedules

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2021, valuation for ASRS were based on the results of an actuarial experience study for the five-year period ended June 30, 2016. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2017, actuarial valuation. The study did not include an analysis of the assumed investment rate of return. In addition, the discount rate was lowered to 7.0 percent in the roll forward for the year June 30, 2021 from 7.5 percent, which was used for the actuarial assumptions at the valuation date.

The actuarial assumptions used in the June 30, 2022 valuation for PSPRS were based on the results of an actuarial experience study for the five-year period ended June 30, 2021. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The PSPRS Board adopted the experience study recommended changes which were applied to the June 30, 2022 actuarial valuation. The total liabilities as of June 30, 2022, reflect changes in actuarial assumptions based on the results of an actuarial experience study, including decreasing the discount rate from 7.3 percent to 7.2 percent, changing the wage inflation rate from 3.5 percent to a range of 2.75-15.0 percent, and increasing the cost-of-living adjustment rate from 1.75 percent to 1.85 percent.

In addition, the Town of Payson refunded excess employee contributions to PSPRS members. PSPRS allowed the Town of Payson to reduce its actual employer contributions for the refund amounts. As a result, the Town of Payson's pension contributions were less than the actuarially or statutorily determined contributions for 2018 and 2019.

No assets are accumulated in a trust that meets the criteria in GASB Statement No. 75, paragraph 4, to pay the benefits for the single-employer defined benefit OPEB plan.

#### **Non-Major Governmental Funds**

#### **Special Revenue Funds**

Judicial Collection Enhancement Fund (JCEF)/Municipal Fill the Gap (FTG) — accounts for a \$12 penalty fee established by the State of Arizona to be imposed by the local courts in addition to other fines. The distribution of the fee was split two ways: \$9.00 was remitted to the State Superior Court and \$3.00 was retained by the local court. The use of the \$3.00 fee is for the enhancement of the collection process. The State of Arizona established a 7% increase in surcharges on September 1, 1999 with senate bill 1013. A portion of the increase is distributed to Municipal Courts on a quarterly basis. The program is titled "Municipal Court Fill the Gap" or FTG. The monies collected by this program may be used for the same purposes for which local JCEF monies may be used.

#### **Capital Projects Funds**

<u>Capital Projects Fund</u> – accounts for the financial resources to be used for the acquisition or construction of capital facilities.

#### **Statistical Section**

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

#### **Financial Trends**

These schedules contain information on financial trends to help the reader understand how the Town's financial position and financial activities have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the factors affecting the Town's ability to generate revenue.

#### **Debt Capacity**

These schedules present information to help the reader evaluate the Town's current levels of outstanding debt as well as assess the Town's ability to make debt payments and/or issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules present various demographic and economic indicators to help the reader understand the environment in which the Town's financial activities take place and to help make comparisons with other cities.

#### **Operating Information**

These schedules contain information about the Town's operations and various resources to help the reader draw conclusions as to how the Town's financial information relates to the services provided by the Town.

**Note:** For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to 5 percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

Source: Gila County Assessor's Office, Town of Payson.

Note: The Town of Payson's fiscal year does not correspond with the Gila County Assessor's Office tax collection period. This timing issue along with a lack of detailed payment information from the Assessor creates the appearance of over collection in some fiscal years and an inability to reflect which period collections in subsequent years pertains to.

**Sources:** Payson Unified School District, Sperling's Best Places, and US Census Bureau 2011-2015 American Community Survey 5-Year Estimates.

**Note**: GASB Statement 44 requires that general purpose governments present, at a minimum, population, total and per capita personal income, and unemployment rate. Governments may add other demographic and economic statistics that are useful and relevant to the user of their financial reports, either in this or in additional schedules. **Median age, education level and school enrollment are optional statistics; however, they are among those most commonly presented by governments.**
